After the upgrade, important information you need to know:

- **Uploading Images.** Improvements to Image Submitter now require images smaller than 2 MB. If you try to upload images that are over 2MB, you will receive an error. You will need to resize your image.
- **Find a Client Search on HomePage.** When searching for a client, it is recommended to search by either first name or last name. Avoid using both first and last names.
- **Saved Search Manager Default Change.** Saved Search Manager defaults to Active Prospector Searches. Change Status to All Searches to access other searches.
- **Find a Listing Search Default Change.** HomePage Find a Listing search defaults to on market status listings only. Uncheck for all status searches.
- **E-mailed Listings Location on Agent Web Site.** Listings e-mailed within the Agent Web Site are now displayed on the Private Client View under Agent Recommendations. Note that listings can be sent independent of the Agent Web Site, if desired.
- **New MLXchange Synchronization Tool.** You can now synchronize your appointments, tasks and client contacts with MS Outlook into your PDA. There is a limit on the number of users that can synchronize at the same time. If you get a message that the maximum number has been reached, please try again.
- **Minimum Screen Resolution.** The minimum recommended screen resolution is 1024 x 768. MLXchange no longer

supports 800 x 600.

- **Use Internet Explorer as your Browser.** Internet Explorer is required. Do not use other browsers such as AOL or MSN.

- **Maximize Internet Explorer Window.** Maximize your IE window to ensure the scroll bar displays beside the search criteria.
