## **Introducing Michael Saunders & Company**

**The story of a company which started in 1976 with a single small office.**

In 2006, Michael Saunders & Company® began its fourth decade of service to Southwest Florida. Founded as a single small office in 1976, the company has grown to 17 full-service regional offices—with more than 500 professionally trained associates and 200 staff members.

With four fully staffed divisions, including Residential Sales, New Homes & Condominiums, the Commercial Group, and Relocation Division—along with its affiliate companies, MSC Mortgage and MSC Title—the company remains independently owned and operated. Powerful world-wide affiliations—including Leading Real Estate Companies of the World, Luxury Portfolio, Christie's Great Estates, The Board of Regents, Mayfair International Realty and, most recently, EREN-European Real Estate Network—extend the company's message to qualified buyers globally, ensuring the broadest possible exposure for our properties.

Michael Saunders & Company® is ranked 75th in unit sales and 81st in volume sales among the top 500 largest real estate brokers in the U.S. and is included among the 35 most influential Realtors in luxury real estate. Each sales associate's average of \$5.99 million in annual sales has propelled the company to 9th in the nation for individual agent productivity.
